Gwen's Story

"I work for a hospital and have really enjoyed it for 10 years now. Recently my boss contacted The Iowa Department for the Blind as my vision loss progressed. They have been there for me all along.

I went through the Orientation Center program—where you learn to do—things around the house and develop work skills. If you want to succeed, the Department gives their best to help you. I wouldn't be able to do my job without them."
